

## COMITE MARITIME INTERNATIONAL

24 September 2018

### **CMI Meeting on Unmanned Ships, Cybercrime and Marine Insurance**

You may be aware that the CMI is holding its Assembly meeting (AGM) in London on 9th November.

Following the Assembly meeting, after lunch, we will be holding an International Sub-Committee meeting of the International Working Groups on Unmanned Ships and Cyber Crime and the International Standing Committee on Marine Insurance. The meeting will take place at the IMO headquarters in London.

The meeting will examine the challenge posed by the convergence of modern technology, cybercrime and marine insurance, particularly focusing on the introduction of unmanned shipping into the existing international regulatory environment.

We are **attaching** a copy of the Programme, the Scenario on which the speakers will base their presentations, and a Registration Form. (There is no cost for attendance but we need to keep track of numbers and IMO needs to know who will be attending for security purposes. Please ensure any one attending brings photographic ID).

CMI's International Sub-Committee meetings are open to all members of MLAs, Consultative members, Titulary members and invited guests. It is important that all strands of the shipping industry participate, and we very much expect that the industry will wish to participate in this interesting and important meeting. We would be very grateful therefore if you would forward the attached documents to your membership.

With kind regards

**Stuart Hetherington**  
President CMI

**Tom Birch Reynardson**  
Chair of International Working Group on  
Unmanned Ships
